

## **CONCERT REPORT GUIDELINES**

**In order to get a grade of A in this class, you must attend a choral/opera concert and write a one-page review of the concert. Here are the guidelines...**

- 1 Concert must be a choir concert (not a musical or a church service, although church choir concerts are OK)
- 2 Opera performances are OK, musicals are not
- 3 Review must be one page, typed, double spaced, 12 pt. Times New Roman, 1" margins
- 4 The review should cover the following: vocal technique, stage presence, blend, balance, overall presentation, the look of the choir, and the literature (songs) that were chosen
- 5 This project is due at the end of the first semester, although it is advisable that the students attend a concert before Winter Break. There are few concerts in the month of January.
- 6 Any school choir concert is acceptable, and I will post a list of all district winter concerts in the choir room. College choir concerts are especially recommended (Chapman, CSUF, CSULB, UCI, Concordia).
- 7 If finances or time is an issue, I will provide an afterschool activity in January to make up the points. This project is 10% of the final grade, so make it a priority!
